OBSERVACIÓN: En el principio sólo existía el Caos. El Cielo y la Tierra formaban una masa confusa, en la que el todo y la nada se entremezclaban como la suciedad en el agua. Por doquier reinaba una espesa niebla que jamás logró ver ojo humano y a la que Pan-Ku consiguió dispersar con su portentosa fuerza. Lo puro quedó entonces separado de lo impuro y apareció la suprema bondad, que esparce sus bendiciones sobre toda criatura. Su mundo es el de la luz. Quien a él se acerca descubre el camino que conduce al reino del bien. Mas el que quiera penetrar en el secreto del principio de cuanto existe debe leer La crónica de los orígenes
